Executive Biography

Ryan Witt
Global Managing Director, Healthcare and Pharmaceutical Practice
Juniper Networks

Ryan Witt joined Juniper Networks in November 2010 as the Global Managing Director, Healthcare Industry Solutions and is responsible for the strategic direction of Juniper Network’s healthcare and pharmaceutical business. Ryan is tasked with developing innovative industry solutions, establishing sector partnerships, and driving the company’s healthcare business globally. Based at the company’s Sunnyvale, Ca. headquarters, Ryan works closely with healthcare industry leaders to demonstrate how the network can enable enhanced clinician productivity, help reduce the cost of care and ultimately aid improved patient outcomes.

Ryan is passionately interested in technology’s role within healthcare, and believes that a comprehensively connected planet with secure access to patient data and a borderless path to medical expertise is essential to deliver better patient outcomes. As part of this effort, Ryan Chairs the Juniper Networks Healthcare Advisory Council, a group of provider and life science organizations that help guides the company’s healthcare industry strategy.

Prior to Juniper Networks, Ryan held a number of senior leadership roles at Xerox, Hitachi Data Systems, and BridgeHead Software and has worked directly in the healthcare industry for almost 20 years.

Ryan consults to healthcare oriented tech start-ups, is an Advisory Board member for Vivmed, and is a board member for Mountain View Los Altos Soccer Club, a non-profit charitable organization with strong ties in Silicon Valley. A graduate of San Jose State University, Ryan has spent much of his professional life in Europe, but he and his family now live in Los Altos, California.
