UC Investments Academy

PROGRAM OVERVIEW

UC Irvine is collaborating with the team that invests the University of California’s endowment and retirement savings, UC Investments, to host a program to help students explore a possible career in the asset management industry. This program is completely free to students and includes the very same training that recent college graduates starting their careers at investment firms have undergone before embarking on successful careers managing money for others. The program hopes to open doors to UC Irvine students who may not have known about, felt welcome in or considered such careers before. Everyone is welcome and encouraged to apply. We invite you to come see for yourselves and take advantage of this unique opportunity for you and for UC Irvine. Please apply here.

WHAT IS A CAREER IN INVESTING/ASSET MANAGEMENT?

Here are some things you may not know about careers in investing:

• Your clients tend to be institutions that invest the savings for teachers, firefighters, and healthcare unions and companies, that are responsible for ensuring that their employees’ retirement savings grow enough to enable them a secure retirement.

• Or your clients may be universities and charitable foundations that are responsible for investing their endowments (gifts from generous donors) so that they can fund scholarships and grants to support charities.

• Investors provide capital to entrepreneurs in sectors ranging from clean energy to biotechnology to software and in countries around the world.

IS THIS PROGRAM FOR YOU?

The program is for UC students that are:

• Interested in learning about an investment career

• Can commit to actively participating in the program (approximately 5 hrs – 10 hrs / week for 1 – 2 months in the fall and spring) with flexibility to work at your own pace for certain parts of the program

• Have demonstrated academic achievement
PROGRAM DETAILS – FALL 2023

UC Irvine is collaborating with UC Investments to provide investment training, exposure, and experience that will be free for UC students. The program will consist of online classes and a series of guest speakers from diverse backgrounds currently working in the field. Included will be many insider views into the dynamic and lucrative investment arena.
