

## Ken Neeld Bio

Ken Neeld is founder, President & CEO of Delphi Display Systems, Inc., a leading manufacturer of digital video display systems for the Outdoor Digital Signage market. Delphi's products are fully sunlight readable and are designed to operate reliably in harsh outdoor environments. Applications for Delphi's products include drive-through order confirmation systems, gas pump top point-of-purchase advertizing, digital menu boards and outdoor information kiosks. The company has shipped over 25,000 displays to date with deployments throughout the US and in over 23 countries worldwide. Prior to founding Delphi Display Systems, Ken worked in an engineering capacity for twelve years leading design teams for multiple Department of Defense contracts.

Ken holds Bachelor's and Master's degrees in Electrical Engineering from California State University, Long Beach and an MBA from the University of California, Irvine Paul Merage School of Business, Summa Cum Laude. He holds multiple U.S. Patents in the areas of high-performance parallel computing and signal processing. He is an active member of IEEE, Adaptive Business Leaders Orange County Technology Roundtable and the Deans Leadership Circle Executive Committee for the University of California, Irvine Paul Merage School of Business.
