Congratulations and Welcome Class of 2023!

The Alumni Experience Center welcomes you to the Merage School alumni community. Follow the steps below to activate your account and note the important dates upon graduation.

**Activate Your Alumni Account**
- Go to merage.uci.edu/profile
- On the LEFT, log in with your UCInetID and password. If you try to log in on the right it will not work - that is for legacy access.
- In the Account Summary, click on “Jump to Update Contact Info” on the right to update your personal and professional profile information. Be sure to enter your preferred non-UCI email address in the alternate email field.
- Click on “Jump to Email Forwarding” to enable this service after graduation. List your personal email in the email field. All emails sent to your uci.edu address will forward to the address of your choosing. This is an optional benefit.
- Click on “Jump to Update Interests” to update your interests so we can curate engagements with like-minded individuals and with similar interests.

**Support/Access**
- Computing support ends 90 days post graduation*
- VPN Software disconnects 90 days post graduation*  
  o If necessary, obtain final assistance for items like remastering and reimaging laptops.
- Consult your Career Center advisor for more information on your program-specific services and when they expire.

* From the quarter you completed your degree, not the date of the graduation ceremony

---
