Flex MBA Program

“During the MBA program, I was promoted to a senior role which required more travel and responsibility. The ability to take online classes allowed me to access the modules anywhere, on any device, at any time.

While I was initially drawn to UCI's campus and the collegiate experience, it was reassuring to know that the online options delivered the same academic rigor and high degree of engagement as being on-campus. Not to mention, several of the fintech tools I now use in the workplace were first introduced to me in the program. This experience ultimately gave me a more well-rounded and relevant skill set—preparing me to move into tech savvy, fast moving organizations.”
